

Lanikai Drives to Make You Happy

Lanikai was launched in 2002. Since then, Lanikai has become the fastest growing ukulele brand and has established itself as a market leader in several geographies. Lanikai ukuleles balance the traditional with the innovative, and the ornate with the simple. Our instruments combine ideas and influences from different cultures, the past and the present, and the broadest range of music genres and styles. Lanikai has one fundamental goal: Enabling people to enjoy music.

Lanikai is dedicated to all levels of musicians, from players just starting out to multi-instrumental stage performers, to legends in folk, pop, rock or indie music styles. Lanikai allows them all to uniquely express themselves.

LU - Series

There is a reason why the LU series has become the first choice for many musicians, including performing artists. Lanikai LU ukuleles are available in soprano, concert, tenor and baritone sizes. These ukuleles with mahogany tops, sides and backs offer great playability and Lanikai sound at an entry level price. We offer acoustic electric versions with a pickup/EQ. For stage use, the acoustic/electric concert and tenor models are optionally available in a high gloss black finish and a mother of pearl-style binding. For those who seek a new playing experience and a new sound, we also offer 6- and 8-string LU tenor models. The newest addition to the family is the LU22TS, a special edition tenor ukulele with a classic slotted headstock. Our factory installs original nylgut strings from Aquila in Italy on all our LU Series ukuleles.

Spruce Series

Ready to upgrade to a solid top ukulele? Spruce is a light, yet dense tonewood and an all time favorite tonewood in acoustic guitars. The models in the Lanikai Spruce Series are built with solid spruce tops, mahogany backs and sides and come in soprano, concert, tenor or baritone size. The S-TEQ is a tenor ukulele with a cutaway and a pickup/EQ for those players wishing to take the uke from the beach to the stage.

Quilt Ash Series

Ash has been long known as a wood of choice for instrument builders when a strong attack is necessary, which is generally described as "spank." We came across a highly figured batch of ash that created a distinctive tone. It worked best when combined with a solid spruce top which rounded out the tone, giving fingerpickers the depth they were looking for. Cutaway models feature the new Fishman® Sonitone® ukulele preamp and Fishman® Sonicore® pickup.

Curly Koa Series

Instrument builders in Hawaii derived the ukulele from the Portuguese cavaquinho that sailors left there centuries ago. Koa, a Hawaiian tonewood from the acacia family, became a traditional choice for the ukulele and shaped the characteristic sound. The Lanikai Curly Koa series uses a variety of this beautiful wood. The grain of the koa can be stunning, which is why it is described as "curly". The CK ukes are offered in all shapes from Soprano to Baritone. The CK-6E is a 6-string tenor acoustic / electric model. The CK-TEQ is a tenor uke with a cutaway and EQ/pickup.

Exotic Wood Series

The Big Kahuna of Lanikai is a Wood Junkie. We simply cannot resist finding new materials to experiment with. Lanikai has taken us to every part of the globe. During our travels, we came across Monkey Pod. It produces a fresh tone, with the fine resonance of this exotic wood. In this series, we left out all synthetic enhancements to capture the pure essence and beauty of the natural world. The Exotic Wood Series monkeypod models are available in concert and tenor size, optionally as acoustic/electrics with a Fishman Sonicore pickup. The Exotic Wood Series have a slotted headstock and an extra-wide (37mm) fingerboard, resulting in extra playing comfort for chords and solos all up and down the neck.

By the way, the SMP-T and SMP-C models are endorsed by Lanikai ukulele talent Matt Dahlberg (www.thejumpinglea.net) from Seattle who is taking his little Lanikai to both perform and teach at some of the most important ukulele festivals in the world. In 2012, you will be able to see him at the Cairns Uke Festival (Cairns, Australia - <http://cairnsukulelefestival.net>) and the Caldogno Uke Meeting (Caldogno, Italy – <http://www.ukulelefest.it>).

Lanikai Nylgut Ukulele Strings by Aquila

Now the world's best ukulele strings are available from the largest ukulele manufacturer. All Lanikai ukes are factory equipped with New Nylgut® strings from Aquila in Italy. Thanks to our excellent relation with Mimmo Peruffo's wonderful team at Aquila, Lanikai is the only ukulele company offering the original New Nylgut formula strings as a retail accessory.

This ensures that you will get the exact type of string that your Lanikai uke was factory installed with. Look no further.

Lanikai Koa Packs: LKP-C and LKP-T

The Lanikai Koa Packs are all about giving players what they asked for: A well-appointed koa uke with a rosewood fingerboard and bridge, gold plated die cast tuning machines, abalone rosette, body binding and fingerboard board inlays, a gig bag, and a clip-on tuner at a killer price. A custom wide bone nut was used to increase the string spacing, making these ukuleles more comfortable for guitarists who are trying out the ukulele for the first time. This pack represents unbeatable value from Lanikai. The Koa Packs are available in two sizes: LKP-C is concert size, LKP-T is tenor size.

Kohala

You still have not started playing yet? Well, then the Kohala series ukuleles will start you up in the uke community. In contrast to many basic ukes and uke shaped objects out there, the Kohala soprano ukes provide good playability and tuning stability. We offer two options: the light stain HU212 ukulele and the dark red-brown stain KU212.

As a next step, expand your uke horizon with a model from our Kohala KP Kanikapila series. The KP series was designed for people who enjoy making music together (Kanikapila means "Let's Play Music!"). KP ukes come in all 4 sizes and include a gigbag, a clip on tuner and an instruction booklet.

Pick your first Kohala uke - what are you waiting for?

Rainbow Series

Go Over the Rainbow with Kohala!

We love the traditional look of our mahogany ukes. But we had to try something new and came up with a series of see-through rainbow color ukes. We picked coral pink, petal purple, ocean view blue and lava red as our favorites and launched them as our new Kohala Rainbow series. You can choose between these 4 colors and 2 body sizes (soprano and concert).

CO-UT: Chromatic Tuner with Ukulele Function

High quality chromatic clip-on tuner in the cool Lanikai design for ukulele players and guitarists from beginner to professional.

- Small chromatic clip-on tuner
- Special modes for ukulele, guitar, bass, violin and chromatic
- Small dimensions and well readable back-lit 2-color LCD display
- ROHS and CE certified – no hazardous materials!
- 1x CR2032 Battery included

Cases and Bags

Need to protect your uke while on the move? Lanikai offers fitting cases and gigbags in all four sizes. The black Lanikai foam cases have a black plush padding and straps. All ukulele gigbags come in black cordura with heavy duty padding and straps. There is no more reason to leave home without your uke.

Lanikai Sidekick Ukulele Bags/Hard Bags

Two patterns, two levels of protection, and all four sizes = 16 Ways Lanikai Makes Me Happy!

Spice up your ukulele with these fun and functional gig bags and soft cases. The designs were invented by our designer in Hawaii. Pick your favorite, either a Hawaiian tribal or a Hawaiian floral design!

The gigbags have a thick padding, a zipper bag and back straps. For those of you requiring extra protection for your favourite uke, the new Sidekick softcases add a protective hard board under their thick padding and a heavy duty handle. The protection of a hardcase at the weight of a gigbag!
